

Quality Policy

Micromech Holdings Limited are the UK leading experts in positioning and speed control supplying a wide range of motion control products plus associated equipment.

Micromech operates a documented Quality Management System in compliance with ISO 9001:2015, that ensures a systematic and disciplined approach by all employees.

The Quality Policy is communicated to all staff through notice boards, internal website and the induction process. It is available to all interested parties through the company website and is readily available on request.

The Board of Directors are committed to the following:

- consistently providing products which meet our customer's requirements and conform to all applicable regulatory requirements.
- continually striving to improve our product range and ability in order to satisfy the needs of existing and potential customers.
- setting objectives which will be reviewed regularly to ensure that we have the plans, processes, resources and ability to meet the quality policy.
- to monitor and evaluate our process and procedures in order to continually improve the quality management system.

This commitment can only be achieved with the assistance of all staff and external providers, therefore, communication, training and development are of utmost importance to ensure that the quality management system is understood and applied at all levels.
